President's Message

As the year draws to a close we need to finalize next year's roster of officers. The positions that need to be filled are president and vice president. If you have any suggestions or recommendations, we will be glad to hear from you at the November meeting, Wednesday, the 19th at the Payette airport.

The December issue of KITPLANES has their annual kit buyer's guide. After looking through this issue one can only conclude that the home-built airplane industry is alive and well. Listed are 297 different designs of all sorts ranging from single seat, 250 pound weed-hoppers to four-place 2000 pound cruisers and everything in between. We are fortunate to live in a country where this type of industry is able to thrive. Innovation and the willingness to try new and different technology demand a certain type of entrepreneur to put it all together and be successful. My hat is off to those in the kit airplane business.

Hope to see you all at the November meeting.—Burt

FAA RE-OPENS COMMENT PERIOD ON PROPOSED 51% RULE POLICY CHANGES

Those people who did not submit comments to the FAA's proposed changes to interpretation and enforcement of the "51% Rule" will have another opportunity to do so following action this week by the FAA. Citing the inadvertent removal of reference materials for several days during a previous comment period, the FAA announced this week it will accept further comments until December 15, 2008. These reference materials and other related documents are located on the FAA website.

Meeting Minutes

October 15, 2008

Meeting called to order by President Burt Harger at 7:30. The treasurer report was 14,404.88. Minutes were read for the September meeting by Dale Cruson.

Old Business:

No old business.

New Business:

President Burt Harger asked for officer's nominations. No one nominated anyone but the thought processes were put in motion. We need to vote on officers at the November meeting.

Burt suggested that at the first meeting in 2009 we have a sign-up sheet for programs. We have done this in the past and have had a good variety of programs and it is not too hard on any one person.

Dick Peugh said he would bring the cowl for his airplane to the next meeting.

We discussed ideas for the February banquet.

It was announced that Harold Steiner had died. There will

be a pot luck held at Murphy as he did not want any memorial services held.

Burt asked about the Faucet find. A general discussion was held.

At 8:05 Dr. Mann moved and it was seconded to adjourn.

Respectfully submitted Dale E. Cruson

JOHNSON COMPLETES TRANSCONTINENTAL BIOFUEL FLIGHT

On Sunday, November 2, Len Johnson landed safely at the historic First Flight Airport (FFA) in Kill Devil Hills, North Carolina, completing his transcontinental flight in a homebuilt, biodiesel-powered Cozy MKIV. Johnson, EAA 660805, was welcomed by a group of supporters and was presented a Wright Brothers National Memorial "Monument Replica" from the First Flight Foundation.
